

Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

Envirobins

Envirobins

Enviromini

Confidential envirobins

Split envirobins

Envirobins are high volume waste container, ideal for recycling and waste collection points in a busy office environment. Manufactured from durable, high impact polyethylene, envirobins come with a selection of colour coded inserts and a variety of apertures for easy separation of multiple waste streams. The Enviromini provides a space saving alternative in areas with lower volumes of waste. Both units are available as a locking confidential unit.

Benefits

- High volume envirobin reduces frequency of emptying
- Envirobins available with split section or cup bank option
- Enviromini compliments in areas with limited space
- Both units are highly durable and easily serviced
- Wide range of coloured inserts to comply with WRAP
