

## TC Soap & Sanitisers

A wide range of soap dispensers and sanitisers, including manually operated and hands-free electrical options

### Hands-free Dispenser Features

- Battery operated with an average lifetime of 3 years for batteries
- Easy-fit airtight refills with replacement nozzle to prevent blockages & build-up of bacteria
- 1100ml capacity which lasts 2700 doses – cheaper cost per dose than other leading brands
- Easy to assemble with choice of screw or sticker wall mount
- Warning light to indicate when a refill is needed (red) or batteries need replacing (orange)
- Detector to prevent continual dispensing of soap if an object is accidentally placed underneath

### Manual Dispenser Features

- Easy-fit refills can be removed or swapped over at any time, even when full – up to 4000 doses
- 800ml or 400ml capacity – holds air-tight refills to prevent build up of mould and bacteria
- Easy to assemble with choice of screw or sticker wall mount
- Polygene plastic button which retains bacteria and prevents the spread of germs
