

## BATT250 Tube

Colourful battery collector with battery graphics and labelling

The **BATT250** is a budget desktop battery tube ideal for the collection of household batteries in offices, schools, shops and reception areas.

Regulations covering collecting, recycling and reprocessing portable batteries came into force on the 1<sup>st</sup> Feb 2010 so all suppliers will provide a recycling service. Many local councils will also have collection points for waste batteries at civic amenity sites and recycling centres.
