Pako

the eco-friendly mini compactor

ECOLOGICAL INEXPENSIVE EFFICIENT QUICK LIGHTWEIGHT HAND OPERATED COST SAVING RECYCLABLE

Pako is the latest appliance to enhance any modern eco-friendly kitchen

Specifically designed to crush PET bottles and drink cans, **Pako** is lightweight, quick and easy to use and 100% recyclable. In fact, a must-have for every eco-friendly home and work place.

Pako reduces the volume of PET bottles and drink cans by 75%

Thanks to **Pako** with a simple action you reduce a PET bottle or drink can to just 1/4 of its volume. A decisive action for your home and your environment!

Pako educates children to recycle whilst having fun

Pako is also a wonderful recycling educational tool for children. Our designers discovered with their own children that **Pako** is just irresistible!

**A SIMPLE ACTION
THAT IMPROVES
EVERYBODY'S LIFE**

Pako contributes to reducing our carbon footprint

By reducing the volume of PET bottles and drink cans by 75%, **Pako**, in turn, helps waste collection operators to significantly reduce their transport usage and carbon footprint.

Pako is 100% recyclable

Pako has been designed specifically to ensure that all its component parts, including packaging, are 100% recyclable.
