

# Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

## Public Areas

Ware 4 supply a range of containers suitable for public areas such as shopping centres, train stations and airports. Below are a few examples

### High Security

For areas where security is a priority such as train stations and airports we offer a range of post and wall mounted sackholders and clear containers such as the C-Thru bin pictured right.

### Outdoors

Eco-Bins can be used to segregate recyclable waste both inside and out. The robust 140L or 140L unit comes with an inner wheelie for easy emptying and a range of colours and apertures with for different waste streams

Ware 4 supply a wide range of outdoor litter bins with optional cigarette stubbers and ash trays. These can be also be combined in various colour schemes with stands for recycling schemes.

### Smoking Bins

A range of smoking bins including wall and post mounted ash bins and smoking poles

### Smart Recycling

The Zintec-R range come in a variety of sizes, colours and lid options. Manufactured from robust zintec steel these containers are also fire resistant

### Waste Transport

Robust Brute containers & dollies for material handling
