

Ware 4 Bins & Recycling

Bins, Trolleys, Recycling and Waste Containers

Save time and money with Ware 4!

Daytime cleaning is an effective way of reducing your costs and making life easier for both your staff and your clients. There are no expensive night rates, and your clients can see the results of your cleaning as it happens. Companies that begin daytime cleaning programmes have also reported an improvement in client relationships, as the occupants are able to communicate with the cleaning staff.

Ware 4 will help you...

- Enable daytime cleaning services to reduce costs and improve cleaners' wellbeing
- Provide healthy environments with the use of superior microfibre textiles
- Offer ergonomic products to help your employees avoid injuries, strains and illnesses
- Keep your location in peak condition with easier spot cleaning
- Improve the wellbeing of your cleaning staff – research has shown that working at night is unnatural for the human body and can lead to ill health.

Dr L Van Amelsvoort of Maastricht University demonstrated that night-time shift work may actually be related to specific heart problems. In his study, night-time workers were found to be twice as likely as daytime workers to develop an irregular heartbeat.

Rubbermaid's specialist cleaning products:

- **Pulse Mop** – the ideal tool for spot cleaning
 - 50% faster than a traditional mop and bucket
 - non-slip tip helps prevent the handle sliding and falling
 - trigger handle enables one-handed operation, reducing RSI
 - high-capacity on-board reservoir holds 0.7 litres – cleaning up to 80m²
 - use with a 7.5 litre caddy to clean up to 930m²

- **WaveBrake Mopping Trolleys**

- combine all your cleaning accessories for optimal efficiency
- optional dirty water separation
- ergonomic handle for easy manoeuvrability
- capacity to hold two safety signs
- quiet castor dolly, ideal for noise-sensitive environments
- revolutionary bucket shape inhibits wave formation, greatly reducing splashes

- **Microfibre Mops, Cloths and Mitts**

- remove 96.8% of bacteria
- colour-coding helps to reduce cross-contamination
- withstand up to 500 commercial launderings and 90°C hot water
- reduces chemical consumption by up to 95% and water consumption by up to 90% vs. traditional mopping
- 3 times faster than a traditional string mop
- bleach-safe durability
- available for wet-mopping or dry-dusting

- **HYGEN Wringer**

- one bucket provides clean water all day
- twin roller requires 50% less force to wring than a traditional side press wringer
- built-in scrubber removes 25% more dirt from the mop
- adjustable moisture level
- floor drain allows users to empty bucket without lifting
- compatible with all RCP cleaning carts

- **Cleaning Carts**

- colour-coded buckets prevent cross-contamination
- hooks to fit Brute / Slim Jim waste bins / safety signs
- mop holders fit all sizes
- bucket platform easily carries a fully loaded Disinfecting Bucket
- non-marking castors
- removable organising boxes for easy separation of dirty and clean mops
- comfort grip handle
- space for high-capacity leak-proof vinyl bag

- **Safety**

- multi-language warning signs for potential hazards and existing spills
- high-visible barricade signs redirect pedestrians from hazardous scenes until clean-up can take place
- slip-resistant pads quickly cover spills and absorb up to 0.45 litres of fluid
- hanging signs fit all single commercial doorways to defend against slip-and – fall injuries
